Operation Of Electric Wet Concrete Saw

A power cutter is designed to cut hard materials, such as masonry. Observe the increased risk of kickback when cutting soft materials.

Never use the machine if you are tired, if you have drunk alcohol, or if you are taking medication that could affect your vision, your judgement or your co-ordination.

Wear personal protective equipment. Eye Protection, hearing protection, safety boots, hard hat and gloves.

Never use a machine that has been modified in any way from its original specification.

Never use a machine that is faulty. Carry out the checks, maintenance and service instructions described in this manual.

Always ensure an ample supply of water is available.
